

National Water Use Data Virtual Summit

Wednesday, February 15th | 9:00amMT-11:30amMT

Hosted by:

AGENDA

9:00am – Welcome and introductions (*Beth Callaway, ICWP Executive Director*)

9:05am -- Recap of August 2022 Water Data Workshop + goals and format for this summit (*WSWC, USGS*)

9:15am – [Session 1](#)

Topic #1: Water Data QA/QC

(15 min) Case study presentations:

Greg Gearhart (CA Water Resources Control Board)

Tara Moran (California Water Data Consortium)

(30 min) Breakout into groups (~5-6):

Structured questions for discussion; mural boards will be used to capture feedback

1. What is your QA/QC process for water use data?
2. Sometimes prescriptive data structures are useful, but they can also be challenging to comply with. What are some examples of data structure systems that allow for flexibility within the QA/QC process?
3. Can data QA/QC processes be standardized? What would be the pros or cons of doing so?

10:00am – Session 1 Breakout Groups reconvene and recap discussion

10:15am – [Session 2](#)

Topic #2: Water data sharing limitations and policies

(15 min) Case study presentations:

Stacy Timmons (New Mexico)

Taylor Christian (Texas Water Development Board)

(30 min) Breakout into groups (6):

Structured questions for discussion; mural boards will be used to capture feedback

1. What are your data sharing needs? What are the limitations?
2. How to make water use information public
3. Have you made any changes to your water data sharing policies, and if so, what are your reactions?

11:00am – Session 2 Breakout Groups reconvene and recap discussion

11:15am – Wrap up and next steps (*Beth Callaway*)

Results from water data survey

11:30am -- Adjourn
